# CITROCAL SAN FOAM

DETERGENTE ANTICALCARE NON ACIDO
**"CONTIENE SOSTANZE IGIENIZZANTI"**

pH 12

Product suitable for cleaning sanitary ware, tiles, taps, shower enclosures, and other surfaces made of marble and stone. CONTAINS SANITIZING AGENTS.
It is particularly suitable for cleaning shower enclosures, where it creates a protective barrier on glass and crystal surfaces that lasts for approximately 3 weeks, This barrier helps prevent dirt build-up, reduces cleaning time, and protects the treated surface.
Suitable surfaces: marble, stone, ceramic, shower enclosures.
Dosage: Ready to use. Rinsing: recommended

Shield Line: The technology that protects surfaces and significantly reduces cleaning time.

Bottle made from 80% recycled material

**Physical state: Liquid**
**Coulor : Red**
**Fragrance: characteristic**
**Solubility in water**
**pH: 12**
**Density a 20°C: 1,022/-0.05**
