

EXTERIOR WOOD VARNISH

A non-yellowing, quick-drying clear finish that protects against UV light and weather damage. Our Exterior Wood Varnish is waterproof, microporous and UV-resistant, giving clear protection for exterior wood.

Its unique polymer system gives a silky satin finish, highlighting the natural grain of the wood. It is suitable for exterior softwood and hardwood timber applications, giving a high level of UV resistance, waterproofing and preservation. Available in satin and dead flat finishes.

ADDITIONAL INFORMATION

Always apply to a test area before starting work. Appearance may vary according to the colour, type of surface, and the number of coats.

Coating life will be reduced on horizontal surfaces and where the coating is in contact with the ground or pooled water.

Dilute 10% with water to prime porous surfaces.

Do not apply when rain is imminent.

Do not shake the product.
